#### BIO

I love movies. I am an actor to my core. Filmmaking is the first thing I think about when I wake up and last thing before I fall asleep.

I appreciate the craft on every level.

I am apolitical and vigilant about the way people perceive me. All I want to do is entertain...and get paid for it.

I have been married for 25 years and am a father of two. My kids are grown, and my wife supports this post military career choice completely.
